EDUCATION

Ramaiah Institute of Technology, Bengaluru   **2021 - 2025**
B.E in Electrical And Electronics Engineering   *7.76/10 CGPA*

TECHNICAL SKILLS

Languages: C++, C, Java, JavaScript, Python
Frontend: React JS, jQuery, HTML, CSS, Bootstrap
Backend: Node.js, Express.js, EJS
Databases: SQL , MongoDB , PostgreSQL
Familiar Technologies & Tools: Git, Github, Visual Studio Code, Postman
Relevant Coursework: Database Management System, Computer Networks, Operating Systems, Object-Oriented Programming, Data Structure and Algorithms, Introduction to AI

WORK EXPERIENCE

RNR Software Inc | Certificate   **Jul 2024 – Oct 2024**
Full Stack Developer   *New Delhi, IN*

- Engineered **responsive web applications** with **intuitive interfaces** and **interactive elements**, improving user experience and reducing **error rates** across devices.
- **Developed a task manager app** with **user authentication**, **role-based access**, and **real-time collaboration**, using **React**, **Node.js**, and **MongoDB** for full-stack implementation.
- Optimized website performance by **reducing load times by 20%** using **advanced CSS** techniques and efficient front-end development.

Bharat Intern | Certificate   **Oct 2023 – Nov 2023**
Web Developer   *Remote*

- Engineered **responsive web applications** with **interactive elements**, ensuring an **optimal user experience** across various devices and screen sizes
- Crafted various user-centric and **intuitive interfaces**, significantly improving **overall usability**, which led to a **reduction in user error rates**.
- **Used advanced CSS** to develop **visually compelling** and seamless websites, reducing **load time by 20%**.

PROJECTS

Venture Book   **Source Code**

- Developed a **full-stack travel booking platform** allowing users to search, book, and confirm travel packages, providing a seamless booking experience and increasing **user satisfaction by 30%**.
- Implemented **user authentication** (login and registration) and integrated **third-party APIs** for real-time data such as flight availability and accommodation options.
- Optimized the **back-end infrastructure** with **Node.js, Express.js**, and **MongoDB**, ensuring efficient data handling for a **large-scale database** of destinations, user data, and bookings.
- **Tech Stack: React JS, Node.js, Express.js, MongoDB**

Budget Vyavastha   **Source Code**

- Designed and developed a **responsive expense-tracker app**, facilitating efficient financial management by tracking income, expenses, and balance, increasing **user retention by 20%**.
- Created an **intuitive and user-friendly interface** that streamlines the process of logging financial activities, resulting in a **15% improvement in user engagement**.
- Utilized **React hooks and styled components**, leveraging modern React features to create a smooth, efficient, and **highly responsive** application, improving **performance by 25%**.
- **Tech Stack: HTML, CSS, JS, ReactJs**

ALGORITHMIC COMPETITIONS/ACHIEVEMENTS

- **Problem-Solving Platforms**: Solved a combined total of **200+ problems** across various coding platforms.
- **LeetCode @ Max Rating: 1681** — achieved a rank of **691** out of **23000 participants** in Weekly Contest 428.
- **Postman API Fundamentals Student Expert**
- **HackerRank @ Certified** in Problem Solving.
- **HackerRank @ Certified** in JavaScript.
